

Press release

03. November 2009

RENEXPO Eastern Europe / Alternative Energy will stimulate the development of “green” energy in Ukraine

For the first time in Ukraine RENEXPO Eastern Europe / Alternative Energy, international trade fair and conference, started on November 3 in KyivExpoPlaza venue in Kyiv. The event, organized by leading trade show companies — REECO (Germany) and Euroindex (Ukraine), takes place under the auspices the Ministry of Fuel and Energy of Ukraine, the Ministry of Industrial Policy of Ukraine, the National Agency of Ecological Investments of Ukraine and National Space Agency of Ukraine. The Golden Sponsor of the trade fair is REHAU company.

Nowadays through the impermissible low efficiency of fuel and energy resource utilization the threat of Ukraine's energy dependence becomes ever more topical. Taking into consideration the high potential of alternative and renewable energy sources in our country, one of the most effective ways to solve this situation is to introduce energy-saving technologies and change for “green” energy. “We hope, that RENEXPO Eastern Europe / Alternative Energy, the first international trade fair and conference, will really become an effective platform for accelerating processes of development of the alternative energy market in Ukraine. We'll ensure the right directions for the energy-saving field development, work through the effective ways of cooperation between the power and business world, make a major contribution to establishment of high energy resource utilization standards”, - noted N.Y. Shumkova, the Deputy Minister for Fuel and Energy, in her welcoming speech to the exhibitors and guests of this event.

At RENEXPO Eastern Europe / Alternative Energy trade fair more than 50 participants from Ukraine, Austria, the Netherlands and Germany present world modern technologies, innovative development and equipment in the field of solar, wind, hydro, geothermal energy, and also heating pumps, cogeneration and trigeneration power plants, technologies and equipment for alternative motor fuels production, solid biofuel, biogas, and energy saving technologies in building. The exposition represents leading Ukrainian and international companies, among which are AQUADOM, GEKO Centre, GEO-NET, GLOBAL TECHNOLOGY, GRESA-GROUP, Inmatech (Hargassner), Kvazar, Nature Fuel Osnabr.-Ölmühle, Roth Werke, Special Technologies, Terezyne, V.D.E. — Ukraine, VENTUREAL etc.

For the first time in Ukraine at RENEXPO Eastern Europe / Alternative Energy trade fair, NUSEP, Netherlands-Ukrainian Sustainable Energy Platform, carries out the Dutch Trade Energy Efficiency Mission under the auspices of the Dutch Ministry of Economics. Representatives of more than 10 Dutch companies, active in the sphere of sustainable energy such as renewable energy and energy efficiency, will take part in this mission. The co-organizers of the mission are the State Agency EVD (Dutch Ministry of Economics) , IMC Organization Personnel Subsidy company (the Netherlands) and Next Step Oekraïne company, the official representative of NUSEP in Ukraine.

The source of professional knowledge about current situation, prospects and development strategies of all alternative energy market segments in the world and Ukraine is the events within the framework of the RENEXPO Eastern Europe / Alternative Energy international trade fair and conference. Famous Ukrainian and international experts from Armenia, Austria, Georgia, Germany will tell about advantages of alternative and renewable energy sources, will open possibilities of attraction of project additional funding and present innovative technologies. The following events will become an effective platform for constructive business dialogue of professionals:

- Wind, Solar Energy and Heating Pumps international conference, the Golden Sponsor of which is ACTIV SOLAR ;
- Biomass international conference will be held under support of the Biomass Scientific and Engineering Center.
- Biofuel national conference will be held under support of UkrBioEnerg.

We are sure that RENEXPO Eastern Europe / Alternative Energy international trade fair and conference, having united international experience, knowledge and innovations, will accelerate the development of alternative and renewable energy market in Ukraine, promote new technology introduction and mutually beneficial relations between prospective consumers and manufacturing companies and equipment and service providers in this area.
